HOW THE NUMBERS WORK OUT

A sample job, worked through

- The job: a 2,200 sq ft home with 4 bedrooms and 3 bathrooms, normal condition. A one-time deep clean with 2 cleaners.
- Hours: 4.89 for floors and surfaces, 1.10 for bathrooms, 0.60 for bedrooms and 0.40 extra for two people working together. That is 6.99 cleaner-hours, or 3.5 hours on site.
- What it costs you: $162.03 labor + $12.23 supplies + $107.76 overhead + $14 for the drive = $296.02.
- Price: set so 25% of it is left after all costs, $394.69, rounded to $395. The fridge ($25) and the oven ($35) go on top.

Quote to the client: $455

The full download includes: pricing calculator, service agreement, intake form, price list and quote, checklist, invoice, guides and examples.
